

**Fifth Country Report on
Implementation of the Framework
Agreement on the Sava River Basin**

Country: Republic of Croatia

Date: 1/08/2014 - 31/03/2016

Executive Summary

Template (1)

(a) Overall status and trends in implementation of the FASRB on national level

Please provide your perspective and view below.

Republika Hrvatska je pozitivno orijentirana na provedbu odredaba Okvirnog sporazuma o slivu rijeke Save i snažno ga podupire, te smatra korisnim i vrlo učinkovitim dosadašnji rad Savske komisije.

S aspekta nadležnosti Ministarstva pomorstva, prometa i infrastrukture, poglavito Sektora unutarnje plovidbe u čijoj je nadležnosti unutarnja plovidba u Republici Hrvatskoj možemo podastrijeti izvješće da se u području plovidbe implementiraju sve odluke Savske komisije. Poseban značaj daje se obnovi i razvoju plovidbe. Koristeći i rezultate relevantnih projekata Savske komisije postignuti su značajni rezultati u pripremama za izvođenje radova na obnovi plovнog puta te također na implementaciji RIS-a. Očekuje se daljnje intenziviranje napora na unifikaciji propisa unutar bazena i na Europskom nivou, te posebice značajnim smatramo nastavak aktivnosti na obnovi i razvoju plovidbe na nivou bazena sukladno odlukama 21/09, 01/10 i Akcijskim planom za period 2011. – 2015. godine u vezi sa strategijom provođenja Okvirnog sporazuma o slivu rijeke Save. Republika Hrvatska posebnu pažnju trenutno usmjeruje na novelaciji propisa koji se odnose na posadu plovila na unutarnjim vodama.

U području upravljanja vodama, koje je u Republici Hrvatskoj u nadležnosti Ministarstva poljoprivrede, nakon što je na 5. Sastanku stranaka Okvirnog sporazuma o slivu rijeke Save održanom u Zagrebu, 2. prosinca 2014. usvajanjem Ministarske deklaracije odobren Plan upravljanja slivom rijeke Save, dominantne aktivnosti u izvještajnom razdoblju bile su vezane uz izradu 2. Plana upravljanja slivom rijeke Save te Prvog plana upravljanja rizicima od poplava za planski ciklus 2016.-2021. godine. U predmetnom izvještajnom razdoblju svakako treba istaknuti rad na aktivnostima vezanim uz zaštitu od poplava u slivu rijeke Save, a nastavno na zaključke sa Ministarskog sastanka održanog u 2014. u Beogradu te stupanje na snagu Protokola o zaštiti od poplavama uz OSSRS.

Također pozdravljamo osnivanje i početak rada Sava Water Councila čime su stvorene prepostavke za sudjelovanje dionika sliva rijeke Save u kreiranju odluka vezanih uz sliv Save.

Vezano uz status protokola uz OSSRS, podsjećamo da je Republika Hrvatska već 2011. donijela Odluku o pokretanju postupka za sklapanje Protokola o izvanrednim situacijama uz OSSRS te s tim u vezi potiče i druge države na završetak nacionalnih postupaka kako bi se pristupilo pregovorima o istom. Savska komisija je odgovarajuće zastupljena na međunarodnim relevantnim događanjima i sastancima vezanim za vode.

Savska komisija dala je znatan doprinos na uspostavi RIS-a (riječni informacijski servis) na Savi. Stvorene su sve prepostavke za njegovo uvođenje, izrađena je potrebna dokumentacija, i uspostavljen pilot projekt, a od država se očekuje da osiguraju finansijska sredstva i dovršetak koji bi bilo uputno realizirati do roka kada će biti uređen plovni put. Republika Hrvatska radi na implementaciji RIS-a na način da on bude funkcionalan na svim njenim međunarodnim plovnim putovima.

Hrvatska ima razvijen RIS sustav na Dunavu i Dravi koji se kontinuirano razvija od 2006. godine. Implementacija sustava RIS na rijeci Savi započela je kao EU financiran projekt u IX mjesecu 2015 i bit će u punom pogonu u roku od godine dana.

Ukupna vrijednost implementacije i nabavke opreme je cca 750.000 EUR od čega se 85% financira od strane EU.

Po implementaciji RIS na Savi ide se u povezivanje ta dva odvojena sustava u jedan jedinstveni koji će biti vođen iz Nacionalne RIS središnjice u Sisku za što je izgrađen novi poslovni objekt koji je za potrebe funkcioniranja RIS-a opremljen potrebnom opremom.

Posljednjih nekoliko godina nastoji se kroz razne projekte vezane uz korištenje rijeke Save potaknuti i gospodarski razvoj u vidu realizacije projekata ruralnog i rekreacijskog turizma.

(b) Key actions taken in support of the FASRB's objectives in its two basic fields – water management and navigation

Please provide your perspective and view below.

Key actions taken in support of the FASRB's objectives in the field of navigation:

1. Implementacija relevantnih odluka Savske komisije koje se odnose na pitanja plovidbe kao i odluka koje se odnose na uređenje, održavanje i gradnju plovnih putova radi postizanja odgovarajuće klase plovnosti uz osiguranje uvjeta sigurnosti plovidbe.

Republika Hrvatska, s aspekta nadležnosti unutarnje plovidbe snažno podupire donošenje *Plana upravljanja slivom rijeke Save* i zalaže se za učinkovito provođenje procedura dobivanja suglasnosti i pozitivnih mišljenja ostalih nadležnih državnih tijela kako bi se stvorili uvjeti za prihvatanje navedenog akta u okviru Savske komisije. Republika Hrvatska je po uzoru na Savsku komisiju donijela PRAVILNIK o plovidbi na unutarnjim vodama (NN-138/2015) koji se primjenjuje na svim unutarnjim vodama Replike Hrvatske na kojima se obavlja plovidba.

Provadena je ratifikacija *Protokola zaštite od poplava*

2. PROJEKT obnove i razvoja plovidbe na rijeci Savi: Sporazumu između Vlade Republike Hrvatske i Vijeća ministara Bosne i Hercegovine o načinu financiranja i izrade glavnog projekta, te vođenja upravnih postupaka za procjenu utjecaja na okoliš, ishođenje lokacijskih dozvola, suglasnosti i građevinskih dozvola za projekt: Obnova i modernizacija vodnog puta rijeke Save od Račinovaca do Siska prethodila je Odluka Međunarodne komisije za sliv rijeke Save – Savske komisije.

Odlukom Savske komisije 21/09 iz lipnja 2009. godine definirano je da će studijsko-tehničku dokumentaciju za potrebe ishođenja građevinskih dozvola za uređenje vodnog puta rijeke Save Republika Hrvatska financirati i provesti za dionicu od Siska do Brčkog, a za dionicu od Brčkog do Beograda, Bosna i Hercegovina. Istom Odlukom je predviđeno da se rijeka Sava od Beograda do Brčkog (na našoj strani to znači do Gunje koja se nalazi nasuprot Brčkom) uređuje kao plovni put IV klase, a uzvodno do Siska kao plovni put IV klase. Radove svatko financira na svom teritoriju.

Stanje projektne dokumentacije:

Studija izvedivosti za dionicu Beograd – Brežice – napravljena, srpanj 2008. (Savska komisija).

Studija utjecaja na okoliš za dionicu Račinovci – Sisak – napravljena (Agencija za vodne putove), Rješenje o prihvatljivosti za okoliš zahvata izdano je 03. studenog 2010 godine od Ministarstva zaštite okoliša, prostornog uređenja i graditeljstva.

Idejni projekt i Lokacijska dozvola za dionicu Brčko – Sisak ishođena, vrijedi do datuma 19.04.2015. godine. (Agencija za vodne putove).

Za projekt „Obnova i rehabilitacija vodnog puta rijeke Save od Račinovaca do Siska“ Republika Hrvatska je putem IPA fonda ugovorila izradu glavnog projekta za dionicu od Brčkog do Siska za iznos od 2.300.000,00 €. Predviđeno je projektiranje i bosanskohercegovačke strane rijeke Save.

Bosna i Hercegovina je, prema Međudržavnom sporazumu, bila u obvezi ishoditi sve dozvole i suglasnosti koje prethode izradi glavnog projekta (lokacijska dozvola i procjena utjecaja na okoliš), još nedostaju suglasnosti iz Republike Srpske, te je potrebno provesti razminiranje.

Bosna i Hercegovina je trebala financirati izradu dokumentacije iz sredstava Svjetske banke. Svjetska banka je odustala od projekta i to zbog toga što Republika Srpska nije htjela potpisati Ugovor.

Odustajanjem Svjetske banke i naš projekt je u velikim problemima jer je putem Svjetske banke BiH strana trebala financirati i razminiranje desne obale. U okviru izrade glavnog projekta potrebno je izvoditi geomehanička ispitivanja koja nije moguće izvoditi na minski sumnjivom području.

Odlukom Savske komisije i Međudržavnom sporazumu svaka zemlja će financirati radove na svome teritoriju. Prema Idejnem projektu, procjena vrijednosti radova za teritorij Republike Hrvatske je 55 milijuna €. Plan je da se sredstva za izvođenje radova osiguraju iz fondova EU. Obzirom da se iz fondova EU ne može osigurati financiranje u 100%-tnom iznosu, bit će potrebno da se sredstva za sufinsanciranje iznosa koji će trebati platiti Republika Hrvatska osiguraju ili iz državnog proračuna ili na neki drugi način.

Odustajanjem od uređenja plovnog puta rijeke Save od Beograda do Siska u opasnosti su i projekti razvoja luka Slavonski Brod i Sisak.

Središnja agencija za financiranje i ugovaranje projekata Europske unije – (SAFU) Republike Hrvatske obavijestila je dopisom ovo ministarstvo o suspenziji do daljnog, provođenja Ugovora o izradi glavnog projekta za plovni put rijeke Save od Račinovaca do Siska. Očekujemo ishod procedure navedene suspenzije, za koju se nadamo da neće predugo trajati te da će projekt biti nastavljen.

3. Podrška i aktivno sudjelovanje u projektu „Lijepa naša Sava“

4. Nominirani su prioritetni projekti za Akcijski plan EU Strategije za razvoj Dunavske Regije; imenovane osobe za steering grupu prema prioritetnim osima *Dunavske strategije*

- 5. Započele su aktivnosti tj. projekti za razvoj luka
- 6. Implementiraju se političke mjere za potporu brodarskim tvrtkama
- 7. Implementiraju se političke mjere za provedbu edukacija za članove posada brodova
- 8. Implementira se Plan obilježavanja rijeke Save, koji je sukladno utvrđenim standardima i sukladno samom Planu implementirala Agencija za vodne putove u svoj Godišnji program obilježavanja i vrlo ga dosljedno i detaljno primjenjuje.

Key actions taken in support of the FASRB's objectives in the field of water management:

- 1. Provedba 1. Plana upravljanja sливом rijeke Save odobrenog usvajanjem Deklaracije na 5. Sastanku stranaka
- 2. Priprema 2. Plana upravljanja za planski ciklus 2016.-2021.
- 3. Priprema 1. Plana upravljanja rizicima od poplava
- 4. Intenziviranje aktivnosti vezanih uz obranu od poplava
- 5. Osnivanje i početak rada Sava Water Councila
- 6. Aktivnosti vezane uz Projekt „Lijepa naša Sava“
- 7. Praćenje aktivnosti (projekti od interesa za sliv rijeke Save) u okviru EUSDR PA 4 i 5

(c) Areas where national implementation has been most effective and/or most lacking

Please provide your perspective and view below.

U proteklom razdoblju, *Okvirni sporazum* se pokazao kao dobra regionalna platforma za poticanje kontakata i poboljšanje suradnje između država stranaka, koja pruža mogućnosti za razmjenu iskustava i usavršavanje stručnjaka, provedbu zajednički dogovorenih, regionalnih projekata, usklajivanje metodologija i postupaka, te poboljšanu međusektorsku suradnju, osobito među nadležnim tijelima u državama strankama. Pristup provedbi *Sporazuma* je, također, pragmatičan i praktičan, obzirom da teži osiguranju konkretnih, upotrebljivih proizvoda za države (plovidbena i turistička infrastruktura, strateški planovi, informacijski sustavi i sustavi razmjene podataka, prognoze i upozoravanja).

S aspekta unutarnje plovidbe napravljen je značajan napredak na izradi zaokruženog pravnog okvira unutarnje plovidbe u RH. U jednom pravcu to je ostvareno usvajanjem direktiva EU a isto tako i ne manje značajno implementacijom Odluka Savske komisije iz područja plovidbe. Time je postignuta unifikacija pravnih normi koje su kompatibilne odredbama EU koje pridonose i stvaranju ujednačene pravne prakse. Također je ista situacija ostvarena i napredak ostvaren na planu obnove i razvoja plovidbe. Očekujemo da će se nastaviti razvoj na svim gore pobrojanim aktivnostima. Usporeno možemo pretpostaviti samo u činjenici nedostatnih finansijskih sredstava, ili dobivanju finansijskih sredstava po nepovoljnim uvjetima od strane novčarskih institucija, bilo domaćih bilo stranih.

Iz područja vodnoga gospodarstva dodatno se može reći da je vidljiv napredak u postupku implementacije po svim gore navedenim područjima, no uvezši u obzir poplavne događaje iz prethodnih godina i katastrofalne razmjere njihovih posljedica razvidno je da je potreban dodatan napor u državama članicama kako bi se maksimalno iskoristili svi raspoloživi mehanizmi OSSRS-a u pogledu prognoziranja, uzbunjivanja i zaštite od poplava u slivu rijeke Save.

(d) Major obstacles encountered in implementation

Please provide your perspective and view below.

U unutarnjoj plovidbi u Republici Hrvatskoj glede implementacije Okvirnog sporazuma o slivu rijeke Save, nismo nailazili na prepreke. Naprotiv, vrlo pozitivnim držimo što je nedavno harmonizirana legislativa Republike Hrvatske iz područja unutarnje plovidbe s pravnim normama Europske unije uspješno okončana, u cijelosti je kompatibilna Odlukama Savske komisije za pitanja plovidbe a u perspektivi slijede aktivnosti provođenja mjera da se postojeći zakonodavni okvir provede u život, tj da se kroz mjere za operacionalizaciju predviđenih projekta ostvare uvjeti za sigurnu i nesmetanu plovidbi i za njen održivi razvoj, a što joj zaokruženi pravni poredak RH apsolutno omogućuje.

Jedine prepreke koje trenutno uočavamo su nedovoljni administrativni kapaciteti, te nedostatni izvori materijalnih sredstava za ostvarenje zacrtanih projekata. Prevladavanje te situacije moguće je povlačenjem sredstava iz EU fondova za pripremljene projekte, u kom pravcu se poduzimaju aktivnosti.

U određenom dijelu, u pitanjima iz područja upravljanja vodama, djelomično utječe i to što nadležna tijela država stranaka na različite načine percipiraju zajedničke zaključke kao i činjenica da države stranke Okvirnog sporazuma imaju različit status i obveze prema Europskoj uniji.

(e) Future priorities and Policy Recommendations

Please provide your perspective and view below.

Što se tiče pitanja plovidbe, jedan od prvih prioriteta jest nastavak i intenziviranje aktivnosti na obnovi i razvoju plovidbe. U isto vrijeme je važno započeti i sa aktivnostima koje se odnose na unapređenje i podizanje razine imidža unutarnje plovidbe, te širenja informacija o planiranim aktivnostima na obnovi i razvoju plovidbe prema glavnim korisnicima plovnog puta rijeke Save.

U području vodnoga gospodarstva, uz izvršavanje svih dogovorenih aktivnosti u okviru sjednica Savske komisije, prioritetno je aktivirati sve raspoložive mehanizme Okvirnog sporazuma vezane uz zaštitu od poplava, in concreto, sve stranke OSSRS trebaju ih početi koristiti te uložiti dodatne napore kako bi se realizirale konkretnе mjere iz Protokola o zaštiti od poplava, kao i ostale mjere sukladno zaključcima sa ministarskih sastanka iz lipnja 2014. i srpnja 2015.

Chapter IV. Any other issues of importance for the implementation of the FASRB and its protocols

Please provide any relevant information.

Chapter V. Conclusions: Progress towards the Implementation of the FASRB and its protocols

Template (16)

Key information or findings of implementation of FASRB at national level
I) Has implementation of the FASRB and its protocols had any impact on improving water management issues and navigation in your country? Please provide details below. Okvirni Sporazum o slivu rijeke Save i implementacija istog u sektor unutarnje plovidbe u Republici Hrvatskoj omogućio je u pitanjima plovidbe i osiguravanju uvjeta za sigurnu plovidbu pokretanje značajnih projekata koji će u konačnici dovesti do realizacije osnovnih ciljeva Okvirnog Sporazuma. Iskustva u radnim skupinama Savske komisije inkorporiraju se u radu na nacionalnim pitanjima iz domene vodnoga gospodarstva i obrnuto.
II) Which of the objectives and goals of the FASRB and its protocols are being achieved? Please provide your perspective and view below. Razvoj propisa, kompletiranje sustava obilježavanja, značajan napredak u rehabilitaciji plovног puta i implementaciji RIS-a. Izrada Nacrta 2. Plana upravljanja slivom rijeke Save, te Nacrta 1. Plana upravljanja rizicima od poplava te priprema i realizacija značajnih projekata iz domene vodnoga gospodarstva.
III) Please provide an analysis of lessons learned regarding implementation, highlighting examples of actions taken. Najveći doprinos vidimo u činjenici da su Odluke Savske komisije iz nadležnosti plovidbe obveznog karaktera pa su slijedom toga potaknule ozbiljnu suradnju u pogledu stvaranja uvjeta za pokretanje i poduzimanje mjera za realizaciju projekta obnove i modernizacije plovног puta rijeke Save, što će omogućiti plovidbu tijekom 300 dana u godini, a što će pridonijeti gospodarskom rastu cijele regije. Stranke OSSRS su pronašle primjereni model za prihvatanje Plana upravljanja slivom rijeke Save unatoč početnim objektivnim poteškoćama.
IV) Please provide information on difficulties and obstacles in implementation of the FASRB and its protocols. Osnovne prepreke su nedostatak finansijskih sredstava za realizaciju projekata, i nedostatak administrativnih kapaciteta. Određene poteškoće su, prije svega, povezane s manjkom ljudskih i finansijskih resursa država stranaka, osiguranjem sredstava za provedbu prioritetnih projekata, ograničenim pristupom podacima potrebnim za pripremu studija od zajedničkog interesa pod okriljem Savske komisije, te manjkom prikladnih institucionalnih struktura i, u pojedinim državama i nedostatnom usklađenošću zakonodavstva s pravnom stečevinom Unije. U određenom dijelu, u pitanjima iz područja upravljanja vodama, djelomično utječe i to što nadležna tijela država stranaka na različite načine percipiraju zajedničke zaključke kao i činjenica da države stranke Okvirnog sporazuma imaju različit status i obveze prema Europskoj uniji.
V) Please provide information on future priorities and capacity-building need for further successful implementation of the FASRB and its protocols. Ispunjavanjem odredaba Okvirnog sporazuma o slivu rijeke Save dane su mogućnosti za nesmetan razvoj unutarnje plovidbe u Republici Hrvatskoj, gdje je vrlo bitno za Republiku Hrvatsku nastaviti s ciljem rehabilitacije plovног puta rijeke Save u cijeloj regiji i implementaciji RIS-a.

U području vodnoga gospodarstva, prioritetno je izvršavanje preuzetih obveza od strane država članica, a posebno aktivirati sve raspoložive mehanizme Okvirnog sporazuma vezane uz zaštitu od poplava kako bi se realizirale konkretnе mjere iz navedenog Protokola, kao i ostale mjere sukladno zaključcima sa Ministarskog sastanka iz lipnja 2014. i srpnja 2015.

VI) Please provide any suggestions of actions that need to be taken at the regional level to further enhance implementation of the FASRB and its protocols.

Prioritetno je koordinirano poduzimanje mjera s ciljem rehabilitacije plovnog puta u cijeloj regiji kao i implementacija RIS-a sukladno Akcijskom planu na čitavoj Savi.
