

PEG FP

- summary of activities performed since the previous session of the ISRBC -

In accordance with its Program of work, the PEG FP held the 7th meeting on July 1-2, 2008. The meeting took place in Zagreb at the premises of the Sava Commission.

The main issues of the meeting were:

1. Adoption of the report on the 6th PEG FP meeting

The 6th PEG FP meeting was accepted by the Group.

2. Protocols

2.1. Protocol on flood protection

Details are given in AD.5 Realization of work plan for 2008

2.2. Protocol on sediment management

The Secretariat presented current status of activity and proposal of the task group establishment. The Group supported the idea.

2.3. Other protocols-short information on the status is provided

3. Data collection activities

2nd assessment of collected data is performed.

Details are given in report under AD.5.

4. Flood mapping study preparation

This activity was performed in cooperation with the expert from the USACE Introduction. All members of the Group presented the current status of flood related activities in their countries. Representative of the USACE presented the most recent developments in sector with special emphasis on the experiences gained from the Katrina event.

Thereafter availability of data is discussed. At the end the project scope is discussed and further steps agreed. (see: AD.5 Realization of work plan for 2008 for further details.)

5. Any other issues

The Secretariat distributed to the Group relevant ICPDR document on flood related activities on DRB level.

The report from the 7th PEG FP meeting is in preparation and not ready for the SC approval.

The report from the 6th PEG FP is accepted by the Group and submitted to the Sava Commission for approval.
